

Quantifying the Impact of European Food Banks From Farm to Fork

PROGRAMME

**23 June 2020 – Online workshop
Economic indicators**

Following the launch of the project during the **kick-off meeting** on 2 March 2020, the **first online workshop** for the Pilot Group took place with the main objective to identify common indicators, share a standardized and consistent methodology for data collection across Food Banks, and define how to make sense of the information of impact management and measurement. The **second online workshop** focused on communication and on “make data speak” with the objective of focusing on the value of data for fund/food raising and communication.

From this point on, the Pilot Group will concentrate on 4 areas of indicators of Food Banks: economic, social, environmental, and nutritional. The objective is to define common results to create an online observatory of food donation.

The **third online workshop** will focus on the economic area. The topic will be addressed from the perspective of Food Banks but also with the support of external experts.

Tuesday 23 June 2020 – Online Workshop
